# AbaBuild.

## The software for landscapers

AbaBuild offers you a comprehensive functionality tailored to the needs of landscaping companies.

AbaBuild for Landscapers supports your business processes from quot to the final invoice. Industry-specific functions such as customisable service specifications, plant catalogues, preliminary calculations, measurement and direct invoicing, post-calculation and CSD service specifications make AbaBuild a valuable solution for every forward-thinking company. The uniform interface and the clear navigation make using AbaBuild simple and logical.

### Plant lists and flowering calendars
The landscaping solution was developed in collaboration with industry specialists. It is based on the calculation data of JardinSuisse and is CRB certified. Plant lists and flowering calendars are integrat-ed in the service specifications and are available for cost calculation. Over 7,500 plant photos to accompany the plant catalogue data from JardinSuisse guarantee an attractive product offer.

### Affordable and customised landscaping software
The licence costs for AbaBuild are based on the size of the company. The software is also available in a web version as a subscription model. Pre-configured industry clients save lots of time and money during implementation. The solution is continuously being further developed and adapted to the latest industry conditions.
