

AbaBuild●

The software for painters and plasterers

Industry-specific functions such as customisable service specifications, preliminary calculations, measurement and direct invoicing, post-calculation and CSD service specifications make AbaBuild a valuable solution for every forward-thinking company.

Simple use

The uniform interface and the clear navigation make the AbaBau application easy to understand right from the start. The solution was developed especially for tradesmen in collaboration with industry specialists and is based on the calculation data of the Swiss Painters' and Plasterers' Contractors' Association (SMGV). It is also CRB certified.

Affordable and comprehensive software for trade industries

The licence costs for AbaBuild are based on the size of the company. The software is also available in a web version as a subscription model. Pre-configured industry clients save lots of time and money during implementation. The comprehensive solution is continuously being further developed and adapted to the latest industry conditions.
