

AbaFiduciary ●

The software for fiduciaries

Abacus provides you with the ideal tool for your everyday work, equipping you optimally for the advancing digitalisation in the fiduciary industry. The software offers fiduciary companies everything from a single source - with seamless integration and without interfaces.

With AbaFiduciary you work in close cooperation with your clients and therefore always choose the optimal solution. Actively structure the cooperation with the online portal for small businesses, the fiduciary subscription, or your own installation for SMEs.

AbaFiduciary was developed in collaboration with fiduciaries. The software combines the advantages of the time-tested Abacus Financial Accounting software with modern, digital developments. All data is managed centrally in Abacus software at the fiduciary

company, which allows you to develop your service portfolio in a targeted manner. From start-ups to established SMEs - our established solutions create new potential and reduce the administrative workload for your customers.

Cultivate the relationship with your customer based on their needs and create real added value so that they can concentrate on their core business.
