

Organigram

The internal structure of a company and its employees

From master data entry to publication

01

Enter organisational structure

Organisational units, job descriptions and employees are linked to each other.

02

Export to the Org. Manager

The data is visualized.

03

Customise the layout

The visualisation can be adapted to your own needs.

04

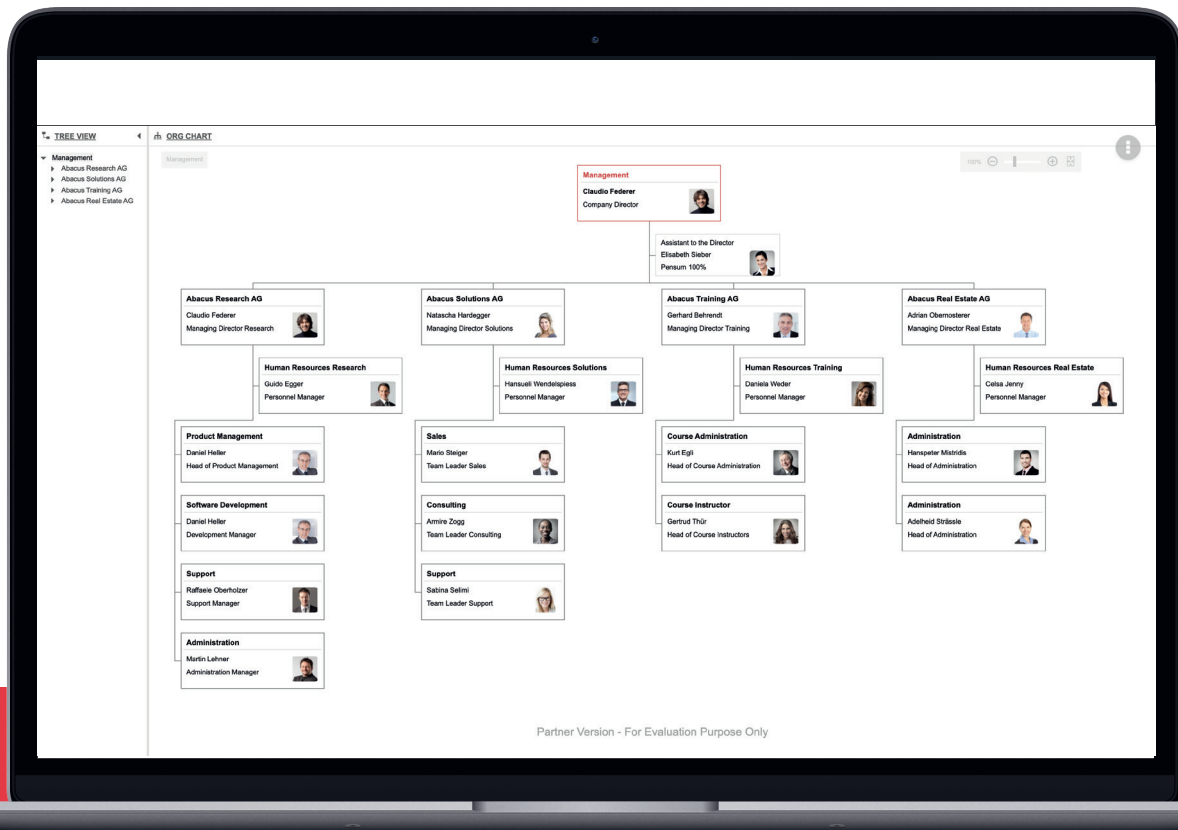

Internal/external publications

The organigram is accessible online. You determine how your contact groups can use the organigram (print and search option).

For a quick overview of your organisational structure. The benefit of an organisational chart (organigram for short) is that it shows the structure of a company together with the employees as precisely as an X-ray image.

The Abacus HR software supports you in the automatic and individual creation of organigrams. You can create organisational charts in no time at all, even with complex organisational structures and several hundred employees. Numerous display options guarantee a smooth and responsive presentation of your organigrams.

There are no limits to your creativity. Define the design, layout and content of your organigram. Print selected areas of the organigram or the complete organisation. In addition, you can export your organisational charts as PDFs and PNGs or download them as Excel files. Numerous search options allow uncomplicated navigation through the organigram.

Your benefits

- Automated creation of individual organisational charts
- Responsibilities and hierarchical structures visible at a glance
- Design can be adapted to the CI/CD of the company
- Print & Export
- Configurable search
- Fully automatic and platform-independent publication of the organigram via internet browser
- Responsive display options
