

Payroll.

The payroll software for all companies

Abacus Payroll has been the leading payroll software in Switzerland for over 35 years. Over 1.5 million payroll settlements are created with it every month.

Companies from various industries and of different sizes, as well as renowned fiduciary firms, rely on the user-friendly and efficient Abacus Payroll.

Powerful payroll processing

Within the monthly payroll processing, you can also process complex wages. As a Swiss product, Abacus Payroll covers all legal requirements in the areas of insurance, taxes and statistics.

Integrated and functional

Payroll is an integral part of the comprehensive Abacus ERP solution together with HR, Time Recording and Project Management. Additional functionalities such as foreign currencies, recalculations, budget and concurrent employment testify to the high scope of services. In addition, you can map the most diverse company organisations and create appropriate standard evaluations.

Continuous development

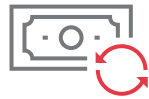

Many years of experience and the wishes of our users are incorporated into the continuous further development of the software. Abacus Payroll is regularly certified by Swissdec according to the newest legal requirements.
