

# AbaTime●

The cloud-based time recording system for small companies

## Get started right away and save time

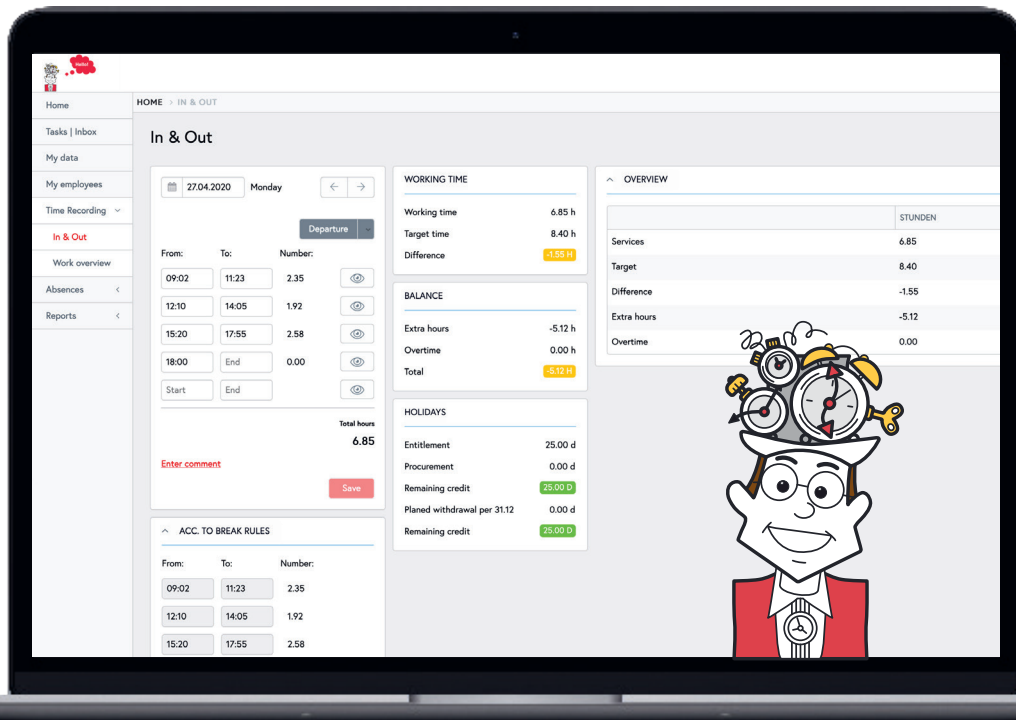

Are you looking for an easy to use, immediately operational and legally compliant time recording system?

AbaTime is our cloud-based solution for time recording. It meets the needs of small businesses, is quick and easy to put into operation without any pre-investments and covers all legal requirements regarding company working time control. Entries are made via smartphone app, web portal, time clock or Bluetooth beacon.

Abacus Business Software, please contact Mister Time. Together with our partners we will help you to create your personalized solution. Sign up for our webinars or test our services without obligation. We are happy to send you the access data for our demos by mail.
